

Collusion Delusion: The Finale

The radical left, the mainstream media and all progressive/ socialists' minions are sending a dangerous message to our enemies around the world. They have declared war on our President and on American citizens who do not share their hateful and reckless ideology. The intelligence assessment by our enemies, foreign and domestic, more than likely conclude that our country is not "the United States" but, the **“Divided States of America”**. Our enemies have been and still are monitoring the unpatriotic behavior and vitriolic rhetoric of the Democrat Party and its radical element in the U.S. Congress. America's enemies know full-well that the manufactured chaos that is being perpetuated by the far-left is undeniably “politically motivated” thus giving them the motivation to launch every assault imaginable. For now, cyber-attacks are just the tip of the iceberg in the never-ending "COLD WAR" between our nation and our foreign adversaries.

The world watched intensely as the Congressional Democrats, without a shred of evidence, accused our duly elected President with colluding with a hostile foreign power. This baseless probe actually began in July 2016 while President Trump was a candidate (9 months before Mr. Mueller was appointed). After 22 months of a Special Counsel investigation, at a cost of nearly \$25 million dollars, it was determined/concluded that there was **"NO COLLUSION"**! This entire charade was without a doubt contrived and designed to destroy a presidency.

Now that the Mueller Report has ended the radical left is more determined than ever to continue congressional investigations focusing on possible obstruction of justice. How could one have obstructed something that never existed? Congress needs to investigate those who played a role in fabricating this false and damaging narrative. Will they? One can only hope they will as it would be the honorable thing to do.

This is all the more reason why the leaders on the left need stop the attacking the President and **GET TO WORK** on the issues that really matter to all Americans not just their political base. Issues such as:

- Defending and preserving our Constitution
- Rebuilding our nation's infrastructure
- Strengthening our military
- Securing our borders
- Reducing the cost of health care

- Investing in medical and scientific research
- Making college more affordable
- Protecting the First and Second Amendments
- Promoting entrepreneurship
- Creating jobs
- Eradicating homelessness
- Protecting the unborn
- Taking better care of our veterans, our elderly and our children
- Restoring honesty, integrity and trust in our governmental institutions

There is so much work to be done. "THE STORM HAS PASSED OVER"! THANK GOD! Now will you please join me and the Fayette County Republican Party along with American Patriots all over our nation as we roll up our sleeves and commence cleaning up the damage that this "political storm" left in its wake. Together we can let the world know that we are and shall always be,

"THE UNITED STATES OF AMERICA...ONE NATION UNDER GOD WITH LIBERTY AND JUSTICE FOR ALL AMERICAN CITIZENS".
