Rent Relief to Empower Virginia Families

Program Name

5000 Families Pilot Program

Description

Virginia can make a bold investment in the future of the Commonwealth and school-aged children by developing a statewide rent relief program that will enable families to stay in their current home or find a more stable, permanent home of their choice. The 5000 Families pilot program will target low-income families with school-aged children and younger. As Virginia seeks to grow its economy through the expansion of its workforce, it is critical that we equip parents with the resources they need to ensure the best possible education for their children, including a place to call home.

Five Key Components:

- 5,000 Virginia families with school-aged children and younger will be served
- Empower families and children across Virginia
- Rent relief provided on a monthly basis to keep rent affordable for the long term
- Support academic achievement and student potential through stable homes
- Managed by the Department of Housing and Community Development

Investment and Timeframe

\$60 Million over a two-year period
