ABOUT

"Purveyor of Hip-Hop and R&B grooves, current and classic, blended seamlessly to generate good vibes."

That's DJ BERN in a sentence. Taking hits from our memories and mixing them with current selections is how he emotionally connects to the crowd. Having grown up in the mid-90s on Hip-Hop and R&B (From SWV to Wu-Tang Clan), while tapping into his fathers collection of funk and soul from the 70s (Parliament, Sly and the Family Stone), music with soul and emotion was influential in building the foundation of Bern's spectrum of sound. Today, this translates into sets where he connects to and controls the crowd through emotion; with music that reminisces on our formative years and hits from today that helps us celebrate the good times in life.
