

# Meet Dr. Dayna Roemermann

## Dr. Dayna Roemermann specializes in Periodontics.

Dayna grew up in Winnipeg, where she completed her dental degree at the University of Manitoba. She then went on to complete a one year General Practice Residency at the Health Science Center in Winnipeg where she worked closely with the Oral Surgery program, worked with medically compromised patients and became IV certified. After finishing, Dayna completed her Masters in Periodontics at the University of Manitoba in 2019. Her masters research focused on relationships between inflammation around dental implants and dental scalars.

Dayna is a board certified Periodontist and a member of the Royal College of Dentists of Canada. She attends numerous conferences every year to continue her education.

Dr Roemermann loves the outdoors and enjoys hiking, running, snowboarding and spending time in the gym. She played volleyball for the University of Manitoba and still loves to play whenever she can. When she has any down time you can find her riding quads and playing beach volleyball at her family cabin outside Winnipeg.
