

# Donation Request Form

Nature's Goodness strives to be a "good local business citizen" and in doing so we have developed guiding principles that state that it is our responsibility to make contributions to strengthen the health and educational fabric of our community. Since 1984 we have focused our corporate giving on local non-profit organizations that:

- Work at providing shelter and care for people and animals in despair
  - Support the local public schools, fire and police departments

This form is required for any organization seeking donations (in kind or cash). Please fill this out. If we are able to make a donation, someone will get back to you. Due to high volume we may not respond to every request. Thank you in advance for your understanding.
