[The Maximum Impact Story](#)

Occasionally, in rare instances, the stars align at the right time and place where a group of talented and dedicated musicians get together to create a band with a common focus: Bring to an audience a powerful, energetic, and entertaining show that is unlike any other. The band was formed in 2013 when each of our individual musical journeys crossed paths. The musicianship and showmanship of all our members, along with the comradery between us, have been brought together to form the Maximum Impact band.

Maximum Impact is a high energy band that plays a wide variety of classic through current rock-n-roll. Our diverse set list will entertain and motivate any audience, keeping the dance floor rocking all night long!

Our group consists of talented players with decades of combined experience. We pride ourselves on our work ethic; we conduct this as a business with absolute professionalism. We are a dependable team that gets along great both on and off the stage.

We utilize only top of the line instruments, equipment and lighting, and are experts at achieving the best possible sound for any sized venue.

We know what's required to be a successful partner with you, giving you the Maximum Impact for your entertainment investment.
