

Royal Caribbean ships with studio cabins

Royal Caribbean has solo cabins on 12 cruise ships. Their accommodation options include an inside studio stateroom, virtual balcony staterooms, and a super studio ocean view stateroom with a balcony. These rooms vary in size from 101 to 199 square feet.

Harmony of the Seas is the only Oasis-class vessel with studio cabins, and all of the Quantum-class ships with the line have cabins for solo travelers. Virtual views in some interior cabins have vertical TV screens that simulate a view outside the ship. The new Icon of the Seas does not have solo cabins.
