Global Recording Artists

*someone new*

## About Us

The Orion Sisters consist of three sisters Lindsay, Natalie, and Bethany multi-instrumentalists who write honest and very personal songs about their own stories and life. Their music is a blend of organic pop sensibilities and soaring memorable melodies but the magic of their sound is in their undeniable harmonies and live performances; the kind only siblings can have. The Orion Sisters were raised in a small Northern California town playing music together their entire life. The girls hope that anyone who listens to their music will relate and connect in a personal way.
