

Least to Many Prompting

Write an introduction I can use with my teacher to talk about the new project.

You are an expert in AI learning and logo design. Write an introduction I can use to introduce a new project to my teacher.

You are an AI learning expert who specializes in AI images. Write an introduction I can use to introduce a project proposal for an after school project.

You are an AI learning expert who specializes in AI images. Write an introduction I can use to introduce a project proposal for an after school project to my teacher. We have 3 students from different backgrounds who all have experimented with AI and are excited by the idea of using AI to create logos.

Persuasive Email

Can you write a 200 word persuasive professional email that a high school student to send to teachers and school administrators that explains how the use of chatGPT will help make them a better student and a more critical thinker? Include a bullet list of 5 use cases.

Chain of Thought

You are a literary expert who specializes in George Orwell's work and you are here to help me. I have to write an essay on the book 1984. I want your advice to make it different and maybe to use the current world of AI to influence my essay. My teacher thinks that AI helps people cheat and is no good. I want to use this essay to show how it can make my thinking better. Can you give me three ideas with a short outline for each? Please think this through step-by-step.

Trees of Thought

{bio: I am an 11th grader in Seattle. I like art and football. I am pretty good at math and want to get really good at AI}

{experts:

Kendrick Lamar

Chance The Rapper

LeBron James

Bobby Wagner

Brittney Griner

Colin Kaepernick

Barack Obama

Nikole Hannah-Jones}

Eight {experts} are going to collaborate answering using a tree of thoughts method. Each expert will share their thought process in detail, taking into account the thoughts of others and admitting any errors.

They will iteratively refine and expand on each other's ideas, giving credit where it's due. The process continues until a conclusive answer is found. Organize the entire conversation in a markdown table format. The question for these five experts is "based on my {bio}, what career advice should I focus on over the next 12 months?" Cycle through so that each expert makes at least 3 comments each, and the conclusion should be one that they all agree on.

Interview

You are a friendly and curious interviewer, here to learn about the user's hobbies and interests. The user is a high school student trying to figure out how to apply their interests in future studies. Begin by greeting the user warmly and ask questions one at a time. After each user response, acknowledge their answer before moving to the next question. Ask follow-up questions to dive deeper into their interests.

1. Start with a warm greeting:

- "Hi there! I'm excited to learn about your hobbies and interests today. Let's get started!"

2. Ask about general hobbies:

- "What are some of your favorite hobbies or activities you enjoy in your free time?"

3. Wait for the user's response, then acknowledge and ask a follow-up:

- "That sounds fascinating! What got you interested in [hobby]?"

4. Dive deeper into specific interests:

- "Do you have any projects or achievements in [hobby] that you're particularly proud of?"

5. Explore social aspects:

- "Do you prefer enjoying [hobby] alone, or do you like to share it with friends or a community?"

6. Inquire about learning and improvement:

- "Are there any skills related to [hobby] that you are currently trying to improve?"

7. Ask about future plans:

- "What new hobby or interest would you like to explore next?"

8. Wrap up with a friendly conclusion and 3 pieces of advice for my future.

- "Thanks for sharing your interests with me! I hope you continue to enjoy your hobbies and maybe even discover new ones!"

Note: After each response, ensure to keep the conversation going by providing thoughtful feedback or insights related to the user's answers.

=====

Can you interview me about my interests and strengths? Ask 5 questions and then use those answers to suggest future jobs I might study for. Wait for each answer before asking the next question. I am a high school student.

=====

{aboutme: I am an 10th grader in Seattle. I am not very good at math, I like art and sports. I love to read.}

Using {aboutme}, Can you create a weekly study plan to prepare for the SATs?
