

# ***DELMARVA 2000™***

These V-Shaped soft foam Pet Positioners are designed for use in veterinary clinics to perform important diagnostic procedures.

Use the "V-Positioner" as a great way to secure comfortably both dogs and cats during diagnostic and treatment procedures such as Dental, X-Ray, Ultrasound, and even Surgery.

- Vinyl covered Styrofoam
- V-shape for Dogs and Cats
- Velcro Straps to secure the animal's legs
- Bright blue color
- Soft and flexible, will conform to the pet's body
- Velcro leg straps make it easy to adjust and secure patient
- Blue vinyl covering makes it easy to clean and identify in the clinic
