

WASP - B LEAGUE

The League was formed in 1953 by members of the Wahoo, Ashland, Springfield and Papillion Gun Clubs. Commissioners were Ted Haney (Wahoo), Dallas Hunt (Ashland), Bill Sass (Springfield) and George Beerline (Papillion). Lee Wagner (Ashland) was elected Secretary. Other members present were Bert Rager (Ashland), Oscar Reece (Ashland), Maurice Ward, H Cordes, B Hansen, G Fudge, George Satterfield and Leaders.

I believe the "B" was added after Bellevue Rod & Gun Club got involved.

The first shoot was held in April 1953 at the Papillion Gun Club shooting at 25 targets from the 18 yard line.

Today the League shoots at six different clubs : Ashland Gun Club; Bellevue Rod & Gun Club, Lincoln Trap & Skeet Club; Papillion Gun Club; Otoe County Wildlife Club and the Valley Trap Range. The shooting program is 50 16-yard targets shot at each of the Clubs during the summer. A prize shoot is held in September with all eligible shooters picking a prize based on how they shot in their class that day.

The Secretary/Treasurer will issue you a card at your first shoot with your assigned classification. Present your card to the hosting Club when getting registered and then go shoot.

Shooting starts at 8:00 am. Registration ends at 3:00 pm for the regular shoots (2:00 pm prize shoot). You can shoot "before, after or during church".

Scores will be posted on the bulletin board by the Club. You should check to see that your score is posted correctly. All ties for trophies will be decided by card draw. Trophies can be picked up at the next shoot. The shoot results will be posted on the WASP-B website - "waspbleague.com".

2026 Shooting Schedule
