Business: Grove Court Apartments

The city is all abuzz that the Grove Court Apartments are getting a new lease on life. The folks behind such places as Vintage Cafe, and the upcoming Ravello italian restaurant are renovating the space. Details are hazy on what they will end up being, but fingers crossed for some affordably priced apartments. Follow their progress @grovecourtmgm on instagram.

Art: Embrace All Kids Mural

If you drive up Clay Street to the interstate, keep your eyes looking to the right and you will see a much welcome splash of color. 21 Dreams, The Kings Canvas, and artist Nathaniel Allen have come together with a mural initiative to bring awareness to Embrace All Kids, an area children's home.

Music: A Need

As our local music scene begins to slowly come back to life, as more and more folks become vaccinated, this authors mind drifts to the venues of yesteryear. And in so doing, bemoans the lack of a good dive bar that regularly features underground music. Not since Head on the Door and Against the Grain has the Gump had a venue that regularly featured such music. The Sanctuary will of course, and we love them for it, but it isn't a bar. So, if you have it in mind to open a venue, with a mindset to feature punk and metal, please let us know, so we can help you. Bonus points if you throw it on the Hilltop.
