Updated 06-2022

You've heard the expression, "It's not **how many times you get knocked down**; it's how many times you **get back up**."

**Now imagine** getting "knocked down" **6 times in 9 years... AND STILL** coming out on the **VERY TOP** of your game.

**Our next speaker did just that.**

Considered by many to be the **NFL's hardest working running back**, he is the **very definition of persistence and grit**.

He is an **inspiring man** who went from **poverty to peak performance** by way of **hard work, perseverance, and hope**.

Despite often being referred to as "**undersized and overmatched**", he became **fan favorite** over his **9-year professional football career** and completed his 2014 season with an **invitation to the Pro Bowl**.

Drawing from his experiences as a **professional football player** and now a **successful entrepreneur**, he will share with us today **the tools he used to overcome obstacles and come out a winner**.

Please welcome **NFL Pro Bowler, entrepreneur, broadcaster, philanthropist, and family man...**
