

## Who we are

LOR Farms was formed in July 2016 and incorporated in January 2020 here in Durham, NC. We are owned and operated by a local chef with 21 years culinary experience who believes the greatest flavors comes from the freshest and best ingredients.

We are excited to be back and serving the local community once again. We are also happy to announce our new Weekly Local Delivery Service!

## What we do here at LOR Farms

We at LOR Farms grow various hydroponic products including microgreens, and fresh local produce; also we offer bee products and nursery plants. We believe in working with Mother Nature to grow the best and most nutrient dense produce available. We are able to conserve water and nutrients by growing our produce hydroponically and aquaponically and supplement our energy usage with solar power to help offset our carbon footprint.

We are proud to work with local chefs and restaurants to provide them with the seasonal flavors and profiles they want to make the most exquisite and enjoyable cuisine you love to eat! Be sure to check back often as our produce and live plants rotation keeps up with the changing seasons so there is always something new to enjoy!

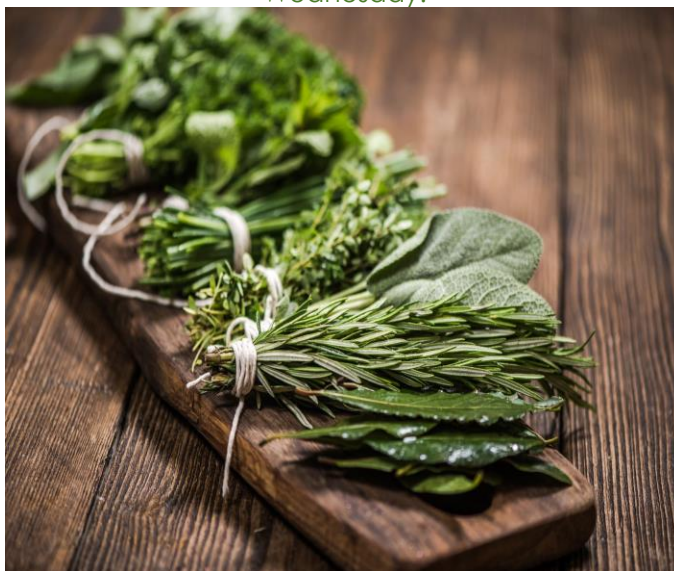

## Local, Sustainable, & Renewable Fresh Microgreens, Produce, Plants, & Bee Products

Local. Sustainable. Renewable. Not just words to us at LOR Farms, Its our Namesake. We strive to make this mean something in everything we do!

Our Mission is to provide you with the freshest locally grown and sourced produce, plants, microgreens, and products available. Our orders are delivered just hours after harvesting to ensure they are the freshest produce around!

\*Due to COVID19, All of our orders are grown to order so please allow 8 - 12 days for growing and to fulfill each order. We are taking the steps to ensure a safe ordering and delivery experience for all involved during this COVID pandemic. New weekly delivery subscriptions are planted each Thursday for the following Tuesday's delivery so be sure to signup or make changes by Wednesday.

### Our Locations / Produce Stand

We just finished building our mobile produce stand! We will be selling at various locations throughout Durham, including at our main location in Eno Estates next to the Eno Commons here in Durham, NC 27712.

### Our Prices

Our Local Fresh Microgreens Are Available Year Round! Some basic prices are below:

#### Microgreens:

*2oz, 8oz, and 1 lb available, prices vary*

#### Live Vegetable and Herb Plants:

*4" potted plant - \$5*

#### Juicing Grasses:

*8 oz - \$10; 16 oz - \$15*

\*We only accept cash and credit cards at this time due to COVID19.\*

### Our Apiary

As we enter our 2<sup>nd</sup> year beekeeping, we are building up our apiary (up to 10 hives) and seeding the flowers to provide a home and food for the bees. Check back often and see how they are doing! Additionally, we will be setting up a live 24/7 camera for the hives so you can watch the progress on our website. We will be offering local honey, honeycomb, beeswax, and hives (parts and completed hives) if you want to start your own beekeeping adventure!

**For Bee Hive Parts and Equipment, please see our website. Honey and Bee products will be available in fall 2022.**

**\*\*Please note: All prices subject to change. Net Weights may vary due to plant types grown and blended. All sales final.\*\***

### Our Produce

Our microgreens, produce, and juicing grasses are grown sustainably and locally! We have various sizes to accommodate any type of event or hunger! We are more than happy to do special orders and blends of specific types of microgreens. Let us know how we can help you!

We now offer our Weekly Local Produce Delivery Service. Sign up today to join one of the most reliable and freshest produce delivery options in the Durham, NC Area! Simply fill out the form on our website and select the items you would like for your recurring weekly order. We deliver the produce with an icepack (optional) directly to your door every Tuesday.

Our hydroponic lettuces and nursery plants are up and growing again and will be available for purchase in the Spring! Check back often as our produce changes with the seasons. See our website for a full list of all of our available produce and products! We are now on Google Business and Maps so please leave a review!
