How?

Pick a launching package

A launching package is necessary for us to be able to set up your property for success. Pick the package that best fits your needs and expectations.

Get your property listed

We'll get your property posted online with professional description and photography. We'll research the area and set up competitive pricing, smart rates, and a complete marketing strategy with promotions and other incentives to stand out.

Manage your reservations (optional)

Once your bookings start pouring in, we can manage all reservations, act as Superhosts, charge and review guests, as well as book and manage the cleaning crew and laundry needs.
