INDUSTRIAL: PROTECT JOBS AND RAISE PAY

We will protect jobs, raise pay and make work more secure.

No job is as safe as it should be. Pay is not keeping up with rising prices. This is where our focus must be.

We will dedicate new resources to defending jobs, preventing site closures and stopping cuts to services. No one will be abandoned.

We will rebuild the largest strike fund in the movement. We will always back members in dispute and support frontline reps.

A NEW START FOR OUR UNION:

We need a new start. It's time to end the toxic divisions which hold our union back.

We will open the books and end four years of secrecy.

Simon Dubbins will not take the General Secretary's salary or any pay increase. Our union must be transparent and accountable with members' money. Members will know how our money is spent.

When we stand together the potential for our union knows no limits. We will be a powerful force for change, at work, internationally and politically.

POLITICAL: ONLY SUPPORT POLITICIANS WHO SUPPORT US

We will only support politicians who support us. That goes for any politician claiming to speak for us. We will find our own voice which will be heard in every political arena where decisions are made about us.

People are angry and are right to be. Our union must be the answer. We will be the force for change that organises to take on the corporate elites and all those who seek to divide us.

We will protect our members from attack and stand up to those planning to take away our rights and protections.

Our members will have their say on the future of the link between our union and the Labour Party.
