

E-Neptune Pads

Facilitates Haemostasis

The TZ Medical Neptune Pad is a natural product derived from sustainably harvested seaweed that utilizes calcium ions to facilitate haemostasis.

These ions are activated by the introduction of blood to the Neptune pad and help to speed up clot formation at the puncture site naturally.

Speeds up Haemostasis

Naturally derived from seaweed

Cost Effective

Extra large surface Area

The texture helps prevent sliding or sticking

Latex free & contains no animal products

Either side works

Item number 8870-04 (Box of 10)

01925 387 121
