NEPTUNE TOPICAL PAD

The TZ Medical Neptune Pad is a natural product derived from sustainably harvested seaweed that utilizes calcium ions to facilitate hemostasis. These ions are activated by the introduction of blood to the Neptune pad and help to speed up clot formation at the puncture site naturally.

Neptune has no known contraindications and is safe to use on all patients. The texture of the pad eliminates sliding, sliming, and sticking to gloves, and because the entire pad is the active ingredient, there is no "right-side-up."

Neptune's calcium alginate provides additional calcium (Ca^{++}) ions for the clotting process and to speed topical hemostasis.

Features

- Speeds up Hemostasis
- Extra-large surface area
- Naturally derived from seaweed
- Ad-Skin Patch Transparent Film Dressing included
- Latex-free & contains no animal products
- Texture helps prevent sliding or sticking
- Cost-effective

STANDARD NEPTUNE

At 2"x 2", Neptune is one of the largest hydrophilic pads available on the market. Calcium ions introduce elements necessary to the clotting cascade, which helps speed up hemostasis and form a stable clot at the puncture site.

NEPTUNE PLUS

The same great hemostasis results from our standard Neptune Pad are also achieved with Neptune Plus, with the additional benefits of a protective polymer backing. The calcium alginate provides the calcium ions necessary for the hemostasis process and helps to speed up clot formation at the puncture site naturally. The Neptune Plus backing is translucent, allowing for visualization of hemostasis.

SILVERSTAT

The SilverStat hemostasis pad is an all-natural calcium alginate pad infused with silver nitrate. These compounds combine to make a safe and highly effective hemostatic dressing. Silver is known to be one of the most effective agents in preventing bacterial infections in a wound. The element naturally eliminates bacterium, even in low doses.

Product	Item Number	Description	UOM
Neptune	8870-01	Neptune 2x2 hemostatic pad	Box of 10
Neptune Plus	8870-03	Neptune Plus 2x2 hemostatic pad w/ polymer backing	Box of 10
SilverStat	8870-07	SilverStat antimicrobial hemostatic pad w/ silver nitrate	Box of 10
