

TruBrite

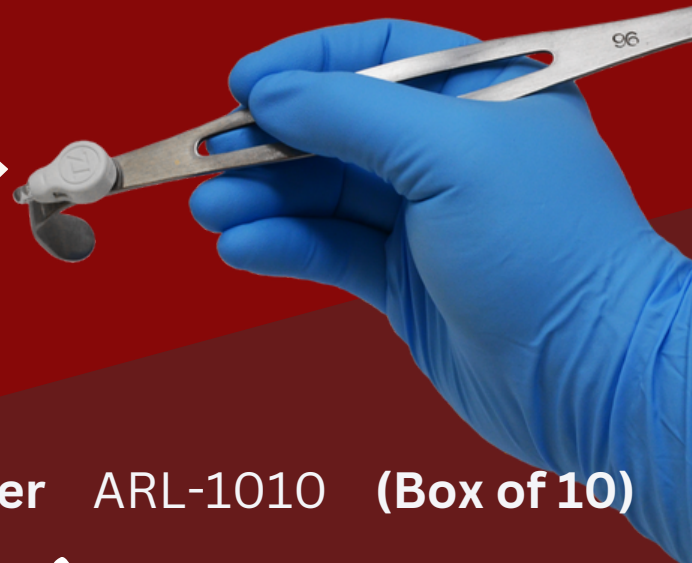

Adhesive Retractor Light

Trubrite is a sterile, single-use light source

It maximizes visualization by directing focused light into surgical cavities

Eliminating possible shadowing caused by overhead lighting systems

The LED light can be positioned straight or angled for optimal illumination

Sterile, compact & disposable

Weighs less than 4 grams

Continuous light for over 2 hours

Adjustable LED light

Self-adhesive

Ideal for pacemaker pockets with Army-Navy retractors

No cords or additional components required

Item number ARL-1010 **(Box of 10)**

01925 387 121
