Letter of Recommendation

To Whom It May Concern,

I am writing to recommend Jeff Walston and his company Premise Construction for construction services with future prospective clients. I have had the pleasure of working directly with Mr. Walston on an interior remodel at our building on Frankfort Ave in Crescent Hill located in Louisville, Kentucky. The scope of work for this project involved the renovation/conversion of a party rental showroom into an office for use for our insurance agency, Foundation Insurance Group.

Premise Construction's scope of work involved carpentry, glass installation, the addition of a new bathroom, and much more. Mr. Walston had direct oversight of the entire project and was able to accommodate all our needs. Premise Construction illustrated their attention to detail, quality, and safety throughout the project. It is the policy of our company to strive for the highest safety standards. Working safely requires a serious commitment by everyone within the organization including vendors and subcontractors. Mr. Walston has met and exceeded our safety program.

Scheduling within the construction industry can be difficult and Mr. Walston was able to effectively meet project schedule requirements. He and his crew were able to quickly adapt to schedule changes from other subcontractors to keep his schedule on time and aligned with the overall project schedule. In addition, Premise Construction has been exceptionally accommodating when dealing with unforeseen conditions and potential change orders.

Please consider Premise Construction for your construction service needs. I highly recommend them and look forward to working with them again.
