To Whom It May Concern,

I am honored to recommend Premise Construction for any construction or renovation project.

Premise recently completed a comprehensive remodel of our 15,000 square foot stand-alone office building. Prior to hiring Premise, our company interviewed three other large-scale construction contracting companies. Jeff stood out from the beginning with excellent customer service, prompt follow-up, and fair and transparent pricing.

Our project started with a dated and deficient building, requiring a complete remodel of the interior and exterior to achieve the look and functionality desired by our real estate brokerage. The scope included a striking new entrance, a beautiful covered outdoor entertainment space, elevator install, and a complete interior renovation of the main floor and lower level.

Throughout the project, Jeff Walston demonstrated exceptional craftsmanship, clear communication, and strong project management. Premise stayed on schedule, managed the budget responsibly, and delivered results that exceeded our expectations. I am truly grateful for his expertise, guidance, and knowledge throughout the process.

The space elevated our business, thanks to the excellent work of Premise Construction. We truly offer an office that is inspirational for working and one that we are proud to host our clients. Our team has received numerous compliments on the project. I would not hesitate to hire Premise Construction again and highly recommend them to anyone looking for a reliable, high-quality contractor.

Sincerely,

Elissa Withrow
