National Alliance on Mental Illness
The County's Voice on Mental Illness

ABOUT US

NAMI Tulare County began in 1978 when two women, both having a child with schizophrenia, started facilitating a monthly support group for family members and friends of individuals with severe mental illness. We became a local affiliate of the National Alliance on Mental Illness, better known as NAMI, the nation's largest grassroots organization dedicated to building better lives for the millions of Americans affected by mental illness. In 1983, a regional NAMI California Conference was held in Tulare County with speakers from throughout the state addressing the latest research in the mental health field.

NAMI Tulare County continues today with an office in Visalia, CA, providing free mental health resources and peer-led support and educational programs endorsed by the national organization. Our trained volunteers bring a unique understanding of people with lived experience and provide outstanding support, education, and skills training. Members receive our monthly newsletter and publications from the state and national organizations.

NAMI Tulare County is dedicated to raising awareness and advocating for improved access to mental health services, treatments, supports, and research. We are committed to addressing the mental health needs of our communities, replacing stigma with understanding, and building a community of hope that stands together for mental health.
