COURSE DESCRIPTION

Learn all of these techniques on LIVE PATIENTS with ONE-ON-ONE instruction from long-term **Magnetic Mallet** tutors at Cicord's 18th **Magnetic Mallet** course. An exceptional opportunity to become more experienced in implementing the minimally invasive protocols that the **Magnetic Mallet** technology offers. Become more comfortable incorporating these advanced clinical procedures into your daily practice.

What you will do and learn:

- Perform a minimum of 4 surgeries of your choice;
 - Extraction (including third molars),
 - Crestal sinus lift,
 - Ridge splitting,
 - Implant site preparation with osteotomes and placement,
 - Osseodensification and bone modeling.
- Optimize the **Magnetic Mallet** forces settings
- The correct sequence of instruments for a variety of protocols
- Learn techniques and tips from doctors with more than 8 years experience!

COURSE AGENDA

(8.30 am through 6 PM)

- 8.00 am** transfer from the hotel to the clinic, "First Dental"
- 8:30 am** opening lecture with Dr Fernando Gomez-Ferrer on Introduction to Basic Principles on the use of the **Magnetic Mallet**, clinical cases and protocols
- 10:15 am** coffee break
- 10:30 am** hands-on on live patients
- 1.00 pm** lunch break
- 1:30 pm** hands-on on live patients
- 5.00 pm** final lecture - discussion of the cases treated
- 6.00 pm** transfer to the hotel
