

NEW OPPORTUNITIES AND HORIZONS

# NOAH

## Voter Activation Newsletter

The NOAH Collective was created from a clear understanding: when our communities are pressured, overlooked, or pushed aside, standing by is not an option—showing up is a necessity.

We are a collective of people committed to supporting one another through action. We will teach, mentor, organize, and speak. Our voices matter, and our future depends on what we do together.

Right now, our community is being tested. Our stories are being minimized. Our rights are being challenged. But we are not here to simply react. We are here to respond with purpose. The NOAH Collective exists to meet this moment with courage, wisdom, and unity. We will collaborate, share what we know, and ignite lasting change, starting with the most powerful tool we have - Our voice and our vote.

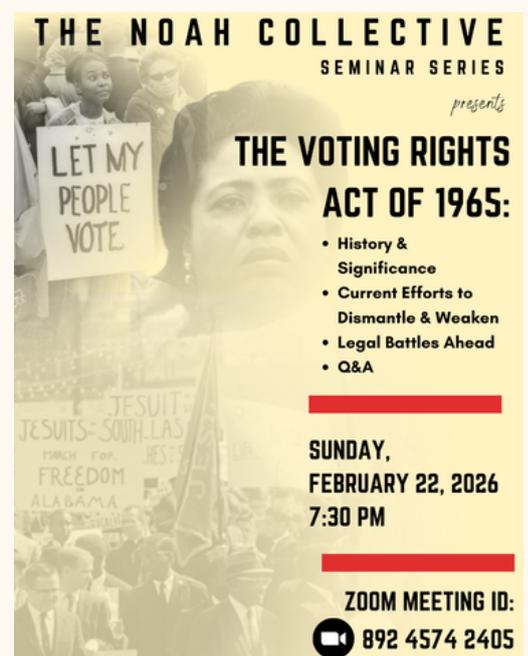

Our goal is to make civic participation clear and reachable, so we all understand:

- Who is on the ballot and what they stand for
- Where to vote and how to be prepared
- When every election happens—local, state, and federal—because every one of them shapes our lives

When we move as one (rowing in the same direction), we don't just strengthen ourselves. We create support for neighbors who feel overwhelmed, unheard, or alone. Together, we become protection. Together, we become progress.

Stay connected through our monthly newsletter for guidance, updates, and practical tools to help us move forward, together, and win.
