

“The Solution Is Science®”

Formulating advanced chemistry and lubricant solutions for the metalworking industry. Products proven to improve manufacturing performance, part quality and cost savings!

FORMING LUBRICANTS

Consultant Lubricants, Inc

4911 Roll Forming Coolant

Nanotechnology Formula

- 1) Extremely Clean** - This product runs extremely clean, has excellent sump life properties, and phenomenal corrosion protection.
- 2) Extreme Pressure** - Extreme pressure nanotechnology for excellent tool and die life and part finish.
- 3) Long-Lasting** - No need to drain and recharge sumps every 6-12 months as our product lasts up to 24 months since we utilize synthetic additives that NEVER go rancid or generate bacteria/odor.
- 4) Tramp Oil Rejection** - 4911 is treated with dual biocides to effectively manage fungal and bacterial levels. Using unique oil splitting technology to separate tramp oils for removal by skimmers.

Consultant Lubricants' 4911 Roll Forming Coolant is a highly advanced roll forming compound. This product runs extremely clean, has excellent sump life properties, and phenomenal corrosion protection.

With our chemistry, you will totally eliminate the need to drain and recharge sumps every 6-12 months as our product lasts up to 24 months since we utilize synthetic additives that NEVER go rancid or generate bacteria/odor.

Areas of Improvement Include:

- Odor free & non skin irritating
- Less carry off on parts
- Extended one year plus sump life
- Excellent corrosion protection
- Machine and part cleanliness
- Immediate rejection of tramp oils
- Extreme pressure - excellent roll life and part finish
- Clear water white liquid
- Increased tool/die life for extreme pressure
- Excellent rancidity control
