

"The Solution Is Science®"

Formulating advanced chemistry and lubricant solutions for the metalworking industry.
Products proven to improve manufacturing performance, part quality and cost savings!

FOOD GRADE

Consultant Lubricants, Inc

3460 Food Grade Hydraulic Oil

High Viscosity

- 1) High Pressure Rated** - maximum available. For hydraulic systems operating at 1000 psi and over.
High Viscosity Index - Extended Service Life - Lower Maintenance Costs
- 2) Food Grade Approved** - formulated to meet CFR 178.3570 for incidental contact with food for human consumption.
- 3) Rust and Oxidation Inhibited** - Excellent Rust Protection, Excellent Oxidation and Thermal Stability.
- 4) Anti Wear Treated** - Excellent Anti-Wear Properties - High Viscosity Index - Extended Service Life
Lower Maintenance Costs

Food Grade Hydraulic Oils are commonly used in high pressure hydraulic systems, compressors, vacuum pumps, circulating systems and air-line lubrication. This product, formulated with highest quality and purity of white mineral oil base stocks, and the latest technology of food grade additive systems, provide excellent protection for food processing equipment systems and where metal to metal contact can cause premature failure. This formulation

offers excellent protection against pump wear, rust and corrosion, and demonstrates superior water separation.

Food Grade Hydraulic are formulated to meet CFR 178.3570 for incidental contact with food for human consumption. They are colorless, tasteless, odorless, and non-staining. This product is H-1 and Kosher approved.
