

Ta(I)king Action: Food (16th Feb 2021)

Your pledge/s:

Mark [redacted]
- growing more food at home

Tom [redacted] - Get York Green Party to respond to the consultation on gene editing

Trying to find balance within buying/ eating local and providing a varied diet for my family.

Carole - will contact local Conservative MP, Julian Sturdy who is a farmer and ask him what he's doing in relation to regenerative farming

To stand with other local movements to improve land rights and access to land for growing. Lily Draper

I'm going to research in to Gene Editing via DEFRA and additional sources Beverley

Adrian - would like to work with others to build a Yorkshire permaculture network (with Andy?)

Increase purchases of 'wonky' fruit and veg to promote less waste. Sara El [redacted]

Tom [redacted] - help Jill on the allotment more

Diversify the meat we eat (focusing on better quality) - Tania & Helen

Grow more vegetable plants to share with Edible York. Audrey [redacted]

More consciously choose locally produced food. Rowena

To take the time to learn more about the issues raised this evening. Luc

Increase our knowledge about small-scale farmers - Helen & Tania

Engage with Local MP (RM) - to respond to gene editing. Thea L.

As a shopper, being really mindful about where we buy and what we buy. AB

Sharing messages on social media about positive actions

Adrian - to write an article for Carole's Magazine

Be vegan for a day, try something different every day, growing veg, reduce meat. Maryam

We need to find a way to share our findings with each other so it is easier to make good decisions.

Spread awareness of the positive solutions to the carbon footprint of our food consumption. Lily Draper
