

## WHAT OUR CUSTOMERS ARE SAYING

Our customers' success stories speak volumes about the impact of Lean4Gain. From streamlining operations to building stronger teams, hear how businesses have transformed with our support and expertise.

Michael Barros

*"They were very professional and offered a lot of pointed and novel insights into a specific issue I was working with, Dave and his team are great & I hope to speak with them again in future."*

Anatoliy Mishak

*"Working with Dave on the project has been an absolute pleasure. His dedication, creativity, and teamwork have significantly contributed to our success. Dave's positive attitude and willingness to go the extra mile have been inspiring to the whole team. His excellent problem-solving skills and effective communication have made the collaboration smooth and efficient. I'm grateful for the opportunity to work with such a talented and reliable colleague."*

Arash Mobasherfar

*"I could find him, much knowledgeable, professional with remarkable punctuality in each project, every steps went smoothly. He is highly recommended to who needing to run any project, start-up in the high standards of quality"*

LEAN4GAIN

# LEARNING COMMUNITY

Our Lean4Gain Learning Community is a platform designed for professionals committed to continuous improvement, leadership, and promoting a people-centric culture. We focus on collaboration, learning, teaching, and solving real-world challenges, supporting your business where it matters most.

## WHAT WE OFFER

Lean4Gain has the expertise to drive operational excellence through Lean methodologies, leadership coaching, and developing human capabilities, helping organizations enhance efficiency and reduce employee turnover.

1

### Business Strategy & Transformation

We help leaders craft strategic visions that drive growth, profitability, and operational excellence using data-driven 80/20 insights.

2

### Operational Excellence & Lean Transformation

We implement LEAN frameworks to streamline operations, eliminate waste, and drive sustainable performance improvements.

3

### Leadership Development & Coaching

Our coaching programs equip professionals with skills to lead teams, navigate challenges, and accelerate career growth in manufacturing and beyond.

4

### Exclusive Resources and Community

Access to the Lean4Gain Learning Community, software, templates, and tools for continuous improvement and competitiveness.

5

### Business & Operational Assessments

We analyze operations through data, observation, and stakeholder input to develop actionable improvement plans.

6

### Talent Development & Retention

We provide customized programs to help managers retain talent, build workplace culture, and improve engagement.

7

### Supply Chain & Materials Management

We optimize procurement and process flows to improve efficiency, reduce waste, and ensure seamless operations.

8

### Plant Operations Optimization

We enhance productivity and sustainability by aligning strategy with execution across plant operations.

9

### Customer Retention & Sales Growth

We implement KPI-driven strategies to boost customer loyalty, advocacy, and revenue growth.

10

### Change Management & Execution

We guide organizations through business transformation, change management, and strategic decision-making for lasting success.

## WHY CHOOSE US?

At Lean4Gain, we are committed to driving meaningful change and delivering results that last. Our unique approach blends Lean expertise with personalized solutions, empowering businesses to thrive in a competitive world.

1

### Proven Expertise

With decades of expertise in Lean methodologies and leadership coaching, we provide solutions customized to address your unique challenges.

2

### People-Centric Approach

Dedicated to developing leadership, retaining top talent, and fostering a culture of continuous improvement.

3

### Comprehensive Support

Providing access to advanced tools, resources, and a global learning community to support sustained long-term success.

## OUR ADVANTAGES:

At Lean4Gain, we deliver more than solutions; we provide a partnership for sustainable success. Our approach combines deep expertise, innovative tools, and a focus on people to help your business thrive.

1

### Customized Solutions

Tailored strategies that address your unique challenges, ensuring impactful and sustainable results.

2

### Expert Guidance

A global network of experienced Lean coaches dedicated to driving operational and leadership excellence.

3

### Focus on People

Prioritizing employee development and engagement to foster a culture of continuous improvement.

## LEAN THINKING TRAINING

CTM pioneered the adaptation of the Toyota Production System as Toyota expanded into Canada and the USA. In the 1990s, we collaborated with former Toyota employees and senior Lean facilitators to deliver training to clients like Linamar, Grote Electronics, and Eveready Battery. Our eLearning is recognized as the closest to Toyota's operational practices, and we are proud leaders in Lean training materials.

### LEAN BELT COURSES

#### Lean White Belt

This course offers an introduction to Lean Thinking, covering its history, principles, and benefits. Participants will gain a foundational understanding and practical insights into how Lean Thinking can drive success in both personal and professional settings.

#### Lean Yellow Belt

This course covers Lean Thinking by exploring the 5 Lean Principles and the identification and elimination of the 7 Lean Wastes. Participants will learn to enhance process flow, support continuous improvement, and deliver customer-defined value using Lean tools developed by Toyota to drive sustainable success.

#### Lean Green Belt

This course covers Lean Thinking by exploring the 5 Lean Principles and the identification and elimination of the 7 Lean Wastes. Participants will learn to enhance process flow, support continuous improvement, and deliver customer-defined value using Lean tools developed by Toyota to drive sustainable success.

#### Lean Black Belt

The Lean Thinking Black Belt course equips management and team leaders with tools to scale Lean Thinking across People, Processes, and Quality. Using the Lean Management System and TWI, participants will improve delivery, customer satisfaction, efficiency, and cost reduction by eliminating waste. The course covers TWI's four modules: Job Instructions, Job Methods, Job Relations, and Program Development.

#### Lean Master Black Belt

The Lean Thinking Master Black Belt course develops Lean leaders who challenge the status quo, guide teams, and optimize the Lean Management System. Participants will shift from traditional management to coaching for continuous improvement and developing future Lean leaders. This approach emphasizes cultural change, goal alignment, and leading by example, creating organizations focused on respect, learning, and delivering maximum customer value.

### LEAN TOOL BOX

#### Value Stream Mapping

This course teaches how to apply Value Stream Mapping (VSM) to improve efficiency and deliver higher value and quality to customers. Participants will learn to identify and eliminate waste, streamline processes, and create an ideal future state to boost productivity and customer satisfaction.

#### 5S

This course teaches how to apply the 5S methodology (Sort, Straighten, Shine, Standardize, and Sustain) to improve workplace organization, efficiency, safety, and cleanliness. Participants will learn to streamline operations and create a productive, well-organized environment.

#### Visual Controls

This course teaches how to apply Visual Controls to create a clear, word-free value stream that communicates process status at a glance. Participants will learn to use 5S visual aids, value stream displays, and metrics to improve visibility and communication.

#### Standardized Work

This course focuses on applying Standardized Work, a key Lean tool for operational stability. Participants will learn to document processes, improve stability, and drive continuous improvement while fostering respect for people.

#### Jidoka

This course teaches how to apply Jidoka, a Lean principle that embeds quality into processes by detecting and stopping errors early. Participants will gain practical skills to improve process stability, address root causes, and foster continuous improvement.

#### Just-in-Time

This course teaches how to apply Just In Time, a Lean principle that aligns production with customer demand, reduces waste, and boosts efficiency. Participants will gain hands-on skills to lower costs, improve operations, and drive continuous improvement.

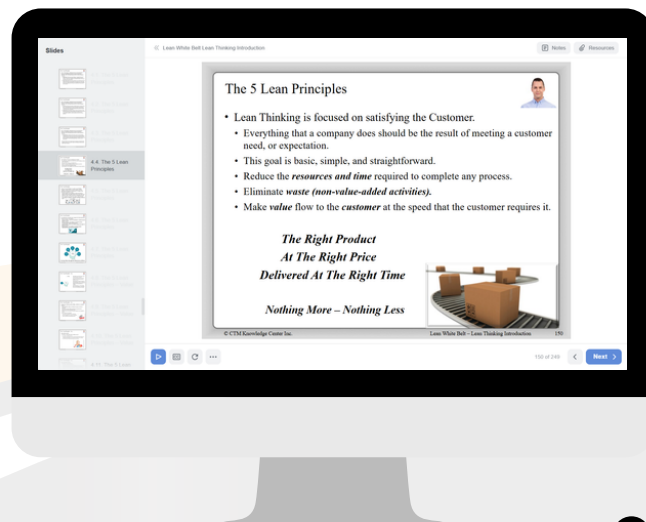

## LEARNING MANAGEMENT SYSTEM (LMS)

The CTM Knowledge Center utilizes a Learning Management System (LMS) to deliver and manage SME Lean Thinking eLearning courses. An LMS is a robust software platform designed to create, deploy, and track training for employees, clients, and partners.

With LMS eLearning, organizations can easily develop new training content and quickly deploy courses to meet emerging needs, such as onboarding, compliance, technology upskilling, and soft skills development. When you choose our SME Lean Thinking LMS for your Lean training, it becomes:

### Your SME Lean Thinking Training Center

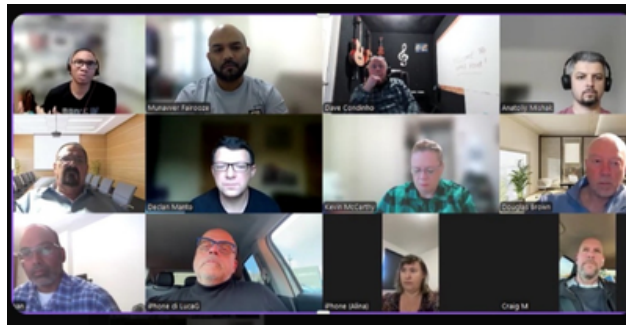

- Learning Management System (LMS)
- SME Lean Thinking Training Courses
- Strategic Flexibility
- Standardized Training
- Scale and Implementation
- Effortless Updates
- Custom eLearning Training Courses

## LEAN4GAIN LEARNING COMMUNITY

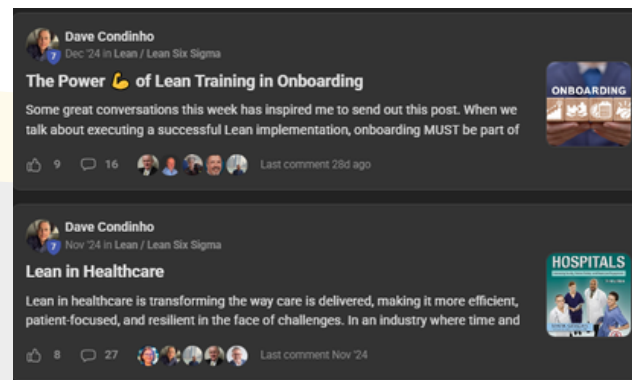

Established on July 12, 2024, the Lean4Gain Learning Community empowers CEOs and business leaders to align strategy, streamline operations, and achieve sustainable growth. Designed for those driving excellence, we connect you with global experts, actionable tools, and a network of forward-thinking leaders.

### LIVE DISCUSSIONS & PROBLEM-SOLVING

Lean4Gain isn't just about learning; it's about transforming your organization. Collaborate with peers and industry pioneers to implement strategic solutions that drive innovation, retain top talent, and strengthen your edge.

### DAILY INSIGHTS ON A VARIETY OF TOPICS

Access exclusive leadership insights, case studies, and sessions tailored to solve high-level challenges. From enhancing profitability to building agile, people-focused cultures, our platform equips you to make impactful decisions.

### CLASSROOM FULL OF FREE RESOURCES

The Lean4Gain Community Classroom offers expert-led workshops, on-demand training, case studies, and interactive discussions on Lean, Six Sigma, leadership, and operational excellence. Members access exclusive tools, templates, and hands-on exercises to solve real-world challenges, exchange insights, and develop skills for driving continuous improvement and leadership growth.

### 7-DAY FREE TRIAL
