

# ELECTRAJET

## DIESEL MOBILE RANGE

EJ MD MAY 2024

In addition to the static range, we also manufacture a range of diesel mobile machines.

A powder coated chassis and full stainless cover ensure a robust machine for a long service life

Available in either single or three-phase power options, with a wide range of other specifications to suit all requirements.

Trusted by some of the UK's largest main dealer garages as well as clients in other high volume wash environments such as vehicle auctions, dealerships, hauliers and many other fleet management surroundings.

# ELECTRAJET

## Product Benefits

Robust, secure and durable design to withstand the rigors of a high volume wash environment

- Easy to use front wash mode control panel
- Hinged top lid with holding cable
- Market leading high pressure Hawk pump
- Cost effective purchase with capital purchase and rental options available
- Full Electrajet chemical supply options
- Smart boiler control system to prevent overheating and unnecessary fuel wastage
- Single & three-phase options to suit all install areas
- Service & maintenance package

## Purchase Options

- Capital purchase
- Rental purchase with service and chemical plans included

## Product Features

- High pressure chemical application
- Steam valve
- Auto Stop & Start
- Smart Boiler Control System with optical flame sensor
- Low fuel warning
- Chemical Line Feed

	MD 1	MD2	MD3
