FEEDBACK

"I never thought I would be one to say I am grateful for my divorce, but it is true. Many of us spend our entire life living someone else's vision of our life and fail to pay proper attention to our own soul. Working with Pamela was an eye-opening experience, and I will always look back on my divorce as the beginning of living life authentically. Oh, the divorce was a breeze once I understood the bigger picture and how it was all connected. Who knew?" Barbara

"My experience with Pamela was nothing short of life-changing. I learned to fine tune my energy and spirit so I could have better communication with my husband -- which after divorce, led to a reconciliation! It was a beautiful process and I recommend Pamela for anyone going through such a horrible time in their life. Her abilities to guide one spiritually, along with her incredible knowledge of the legal divorce process, is nothing short of extraordinary." Stacey

"Every divorce should be handled in this manner. So much trauma could be avoided. Thank you, Pamela, for providing a safe place to process, heal, and allow my soul to take the wheel. What a wonderfully enlightening experience." Mary

HELLO, I'M PAMELA

For nearly three decades, I have worked within the world of divorce as an attorney, mediator, and coach, bringing together my legal experience with a lifelong spiritual journey and intuitive understanding of the soul.

My work recognizes that divorce asks us to navigate very real decisions about children, finances, property, and our future, while another journey is unfolding beneath the legal process. Who am I now? What am I being asked to release? What is this experience here to teach me? And who am I becoming?

I help individuals move through both journeys—offering legal insight that empowers them to become meaningful participants in their divorce, together with spiritual wisdom that can shift the experience from one driven by fear into an opportunity for healing, awakening, and transformation.

It is my mission to help change the way we experience divorce and to evolve the way individuals and families perceive and are treated throughout the process.
