

Courtney Hammond- Operations Director

Administrative report

March 4th, 2026

- We partnered with Monroe Plumbing to address and repair tunnel leaks at both the middle school and high school.
- Lutz Roofing completed repairs on several roof leaks. The affected areas included the roof drain near the high school shop classroom, the Education Operations Report , area outside the high school library, and Door 4 at Central Elementary.
- KW Systems began the installation of the Verkada security system. The remaining installation was temporarily postponed pending the completion of wire pulls to the designated locations. The wiring has now been completed, and the remainder of the Verkada system installation is scheduled for March 21.
- We have partnered with SCI to order a replacement door for the pool boiler room. The existing door is split down the center and can no longer be fully secured. The new door has been ordered.
