### DESCRIPTION:

#### February 17 The ABC's of Early Literacy

Early literacy skills are critical to a child's early development. Parents and caregivers can give young children a jump start on reading by helping them to develop valuable pre-reading skills that prepare them for learning to read. This workshop will help participants understand the importance of reading on grade level by 3<sup>rd</sup> grade, the components of emergent literacy and learn simple ways to help children acquire these skills through playing, singing, listening, talking and reading.

Extension Extras for Parents are free online parenting workshops that provide guidance for parents of young children as they navigate the joys, challenges and concerns of parenting.

### HOW TO REGISTER:
