MICIP Portfolio Report

Mason Consolidated Schools (Monroe)

Improve ELA and Math (23g)

Status: ACTIVE

Statement: Our goal is to provide opportunities for teachers and students that increase student proficiency to 85% in ELA and math by Sept 2026.

Created Date: 10/30/2023

Target Completion Date: 09/01/2026

Data Set Name: 23g Grant

Name	Data Source
Grades 3-8 Assessments: Proficiency	MI School Data
Grades 3-8 Assessments: Proficiency	MI School Data
High School Assessments: Proficiency	MI School Data
High School Assessments: Proficiency	MI School Data

Data Story Name: 23g Grant

Initial Data Analysis: A review of the data indicates approximately 275 students in grades 3-8 and 11 are not proficient in both ELA and Math.

Initial Initiative Inventory and Analysis: -Collaborate with Solution Tree: The district has committed to working with renowned specialists through Solution Tree to enhance its educational practices.-Identified essential standards.-Held summer school for identified students-Allocated intervention time to address student needs.

Current work with Solution Tree in the PLC process has provided clarity to educators regarding the focus on explicit skills and strategies for increasing student achievement.

Gap Analysis: So far approximately 25-30% of our students are below expected proficiency levels in both ELA and Math when we want 85% or more of our students to be proficient.

District Data Story Summary: The data shows a need for explicit teaching strategies to address targeted standards and skills that students lack. Possible factors include socioeconomic disparities, access to quality explicit teaching, the absence of a guaranteed and viable curriculum, and the impact of the COVID-19 pandemic on learning. The district is committed to monitoring the outcomes of current programs such as summer school, dedicated in-school intervention time and plans, and curriculum and instruction through our PLC process.

Strategies:

(1/1): 23g Expanded Learning Time

Owner: Kelli Tuller

Start Date: 10/30/2023

Due Date: 09/01/2026

Summary: EdTrust defines expanded learning time (ELT) as programs or strategies implemented to increase the amount of instruction and learning students experience. ELT strategies include afterschool, summer, and in-school programs. The evidence suggests that extended learning time programs, including extended school day (ESD), extended school year (ESY), and expanded learning opportunities (ELO) programs that provide academic services during out-of-school time hours, can be effective in improving a range of educational outcomes for students. Findings also suggest that extended learning time programs may be more advantageous for low-income, low-performing, ethnic minority or otherwise disadvantaged students.
