Email simmons@eriemason.k12.mi.us

GOAL: My goal is to get every student proficient on the 6th grade Common Core curriculum in Math.

RULES: Posted in room:

Be responsible for yourself and your actions.

Be respectful to all.

Be on task and in your seat unless told otherwise.

Follow directions.

Ask questions!!!

GRADING: Using the grading scale in the school handbook, the grade percent will be determined by

80% Quizzes

20% Homework

EXPECTATIONS: Classes will be using the Holt McDougal Mathematics Grade 6 textbook which is correlated to the Common Core Curriculum throughout the year and various resources from the Internet, including Study Island.

My expectations for students:

1. Be on time with all materials everyday.
2. Put forth your best effort for all work all the time.
3. Ask questions.
4. Come in with a good attitude and a willingness to learn.

Necessary supplies:

Students will need: a 1 inch 3 ring binder to keep notes and handouts in, a calculator (\$1 calculators are fine but tend to not last long, you can get a good \$10 calculator such as a TI- 30 with some extra functions that will probably last throughout middle school and beyond), paper in your binder for notes and homework, and pencils. Please try and replenish the paper and pencils partway through the year, I end up furnishing huge amounts of both after a few months of school.

Furthermore, if you would like to contribute a few boxes tissue and possibly a small bottle hand sanitizer it would be appreciated, 6th graders seem to use these two things in great quantities and we always could use some.
