

Courtney Hammond- Operations Director

Administrative Report

July 8th, 2026

- **New CTE Room Update:**
 - Leidel Painting completed painting the walls and ceiling in the new CTE classroom.
 - Precision Epoxy Flooring completed installation of the new epoxy floor on July 1–2.
 - The new dust collection system has been delivered and is ready for installation.
- **Grounds Improvements:**
 - Restoration Tree Service completed several tree maintenance projects throughout the district, including:
 - Removing trees behind the bus garage that were impacting the building's foundation.
 - Removing two dead trees in front of the elementary school.
 - Removing two dead trees adjacent to the middle school softball field.
 - Trimming the large oak tree located across from the bus lot.
- **Elementary Classroom Improvements:**
 - The maintenance team has been patching and painting walls throughout the elementary classrooms as part of the summer maintenance and building refresh.
- **Middle School Safety Upgrades:**
 - The maintenance team replaced the original curtains in Middle School classrooms 1–6 with new blinds. This upgrade improves student safety while also reducing classroom distractions.
- **Visitor Bleacher Removal:**
 - Jason Wright assisted the district with the removal of the visitor bleachers. A small amount of cleanup remains before the project is complete. Once the site has been cleared, installation of the new concrete pad will begin.
