DESCRIPTION:

July 9: Setting the Stage: Promoting Social-Emotional Health in Young Children

Social and emotional development, a critical aspect of overall brain development, begins at birth. Social-emotional skills are nurtured through daily routine, language and play. They are the foundations of social competence that affect a child's ability to adapt in school and to form successful relationships throughout life. Learn about social emotional health, activities and resources that promote social emotional health, and explore ways to provide an environment that is responsive to social emotional health.

Kinship Caregiver workshops are a free online series of workshops that provide guidance for caregivers of children as they navigate the joys, challenges and concerns of raising children.

HOW TO REGISTER:

Register in advance for any of the webinar workshops at the following link: **https://msu.zoom.us/webinar/register/WN_dZEat3Y_RLmerD7NcoQGyA#/registration**
