## **DESCRIPTION:**

### **September 10: Intro to HOPE**

Positive childhood experiences (PCEs) drive healthy child development and lessen the lifelong effects of adverse childhood experiences (ACEs). PCEs help children build resilience and grow into thriving, healthy adults. The HOPE framework centers on those key types of PCEs to help everyone – parents and caregivers, professionals, organizations, and agencies – promote health and well-being for children and families. Attendees will learn about Type 1 and Type 2 thinking, PCEs, the HOPE Framework, and the Four Building Blocks of HOPE.

Kinship Caregiver workshops are a free Online series of workshops that provide guidance for caregivers of children as they navigate the joys, challenges and concerns of raising children.

## **HOW TO REGISTER:**
