

## **Operations Director Administrative Report**

**04/03/2024**

- **The patch work has been completed on the east end of the High School roof. This has stopped the leaks in room 300 and the hall along the library. We have been evaluating roofs for future projects in the coming years.**
- **Spring break has been very busy with work being done by numerous contractors. A new water heater in the kitchen at Central, tile and carpet work at the high school, repair of missing tile work on the pool, and fields prepped and ready for spring sports.**
- **The new radios are installed on all the buses. This will greatly improve the ability to communicate with the buses. This will allow us to directly communicate with each bus, rather than a bus to bus relay.**
