

Brandon Bates Administrative Report

Date: 8/11/21

- **Things are slowly starting to pick up around here. It's nice to see all the athletes around school preparing for their fall sports and a few teachers have been in and out so far.**
- **Starting this fall we will be implementing Eagle Advisory Time or E.A.T. The Eagle Advisory time is a multifaceted program, the purpose of which is to promote meaningful relationships between staff and students while also providing academic support. E.A.T. will consist of daily meetings, weekly themes, and monthly projects, through which students will experience a more personalized learning environment with a structure and set of practices for monitoring and encouraging academic progress and career/college readiness. We first began the advisory program during the 4th quarter of last year, through our virtual hour and we saw many positives. We are excited to continue to build on this momentum. A voluntary teacher committee, along with myself, have been working this summer to build the advisory curriculum to be used throughout the school year.**
- **As you are aware, Kelly Trainor has accepted an administrative position elsewhere. I want to thank Kelly for her years of dedicated service and we will certainly miss her! I look forward to the new opportunities and perspectives with a new person serving as Athletic Direction/Dean of Students.**
- **Open House will have a different look here in the high school this year. Each teacher will be in their own rooms to meet students/parents and answer any questions about their classes or curriculum. Prior years teachers were assigned to stations and parents/student moved throughout the building as more of a registration process. We are excited to welcome back our families!**
