Mason Consolidated Schools is dedicated to ensuring student and staff health and safety. COVID-19 precautions, procedures, and responses are evaluated and adjusted as directed by our local and state health departments and Executive Orders from Governor Whitmer. When a positive case of COVID-19 is identified, administrators work with the Monroe County Health Department to provide individuals with supports and resources to assist in recovering or stopping the spread of this virus.

This week we were informed of a positive case and followed these procedures. The Monroe County Health Department indicated that no person on our campus was a contact of the positive individual.

Respectfully,
