

**Mike Valentine**

**Operations Director Administrative Report**

**12/07/2022**

- **I worked with SIEB Plumbing all day Saturday, 11-19-2022 to do some heating repairs and to also fix the leak at the Middle School. We repaired it enough to last until shutdown/ summer work. Additional work is extensive and will be addressed during the summer.**
- **Work orders and repairs keep getting finalized. It has been a challenge due to being down an employee, but with a new individual starting on the 12<sup>th</sup> it will help tremendously.**
- **The transportation department experienced some bus problems this year with breakdowns and buses needing repairs. Our great drivers have muscled through the hard times with borrowing buses to doubling up routes to get kids to and from school safely.**
