

Debbie McCain - Administrative Report

Date: May 15, 2020

- I would like to thank Jason Burt for all of his support and expertise that he has provided to the staff and I during this crazy time. He has been instrumental in our virtual learning platform success! The staff has been truly amazing and leading the county in the CV19 shutdown learning plan.
- The May learning packets were delivered via afternoon bus routes on May 4th. The entire staff, including the aides, assisted with the learning packet delivery. Many students also returned their April learning packet work for the teachers to review.
- Teachers in grades K-3 were trained and updated on the IRIPs (Individual Reading Improvement Plans) with Lynn Preston – ISD literacy coach – on May 7th.
- We continue to have weekly staff and unit meetings to ensure everyone is kept up to date on the CV19 shutdown requirements and changes.
- On-line applications for the GSRP and Head Start are available on the website for parents to begin registration for the 2020-21 school year. We hope to open the on-line kindergarten registration the week of May 18th!
- Stay safe, healthy and sane!!!!
