Family Tech Support Plan

Remote learning introduces the need for various support plans to successfully educate students in a way that is effective and fun for both students and parents. It is our goal at Mason Consolidated Schools to provide as much support as necessary to ensure your child(ren)'s remote learning initiatives are fulfilled. Please review the following points to help generate a best-in-class learning experience:

- **Device Needs** – If your child is in need of a device, please see the document on our Remote Learning page of our website titled “Family Tech Liaison.” All devices are content filtered by our subscription providers Securly and/or Lightspeed.
- **Learning Portal** – All remote learning starts with your child(ren)'s Google Classroom. Within Google Classroom, the teacher(s) will post all online assignments, virtual meetings, and class discussion topics/video postings. Please see the document “Signing into Google Classroom” on the remote learning page of our website for step-by-step instructions. Alternatively, there is a video available to watch on our YouTube channel:
<https://www.youtube.com/watch?v=pVrhkIBMxYc>
- **Communication** – All communication from the district to your child will be sent through their official email. Grades PK – 10 can only receive emails internally within Mason Consolidated Schools to protect your child. Furthermore, Mason uses Bark to review all communication through email and Google Classroom. Instructions on logging into your child(ren)'s email can be found here: <https://www.youtube.com/watch?v=jkXoc37aHNg>
- **Social Media & Website** – Please follow our social media outlets and review our website to stay up to date with the latest Mason Consolidated Schools News.
- **Technology Support** – If you need any technical support for remote learning, please visit the Remote Learning page of our website and review the document “Tech Support Flowchart.”
