

## **Brandon Bates Administrative Report**

**Date: 6/15/20**

- As you know, we have (tentatively) rescheduled graduation for July 17<sup>th</sup>. I am anxiously awaiting more information from the Governor as to how many people will be allowed to be together at this outdoor event. Lots more to come on this!
- Last week we had the students come and return any school items and collect their belonging from their locker. It ran very smoothly overall. It was great to see the kids again! Special thanks to Lynn Ferguson for tagging and bagging up all of the contents from the lockers.
- Summer school at the high school will begin in a few weeks. This year will be different in years past. We will have some students finishing up their work from the 4<sup>th</sup> quarter in order to receive credit and we have some student that fully need to recover credits via MAVA. We also have several students taking advanced math classes this summer in order to challenge themselves with upper level Math in the fall. Mrs. Morrow will be overseeing our MAVA summer school program. We are still working out the details for the students that received "Incompletes" and need to finish the 4<sup>th</sup> quarter.
