**DESCRIPTION:**

**November 18: Working Together to Develop Early Literacy Skills (Infant/Toddler)**

While infants and toddlers aren't ready to read just yet, parents and professionals can learn and practice ways to help children develop a strong foundation for important literacy skills. This workshop will help participants understand the importance of reading on grade level by 3rd grade, learn and understand the components of early literacy such as experiential writing, communicating, vocabulary, and reading and rhyme with infants and toddlers, learn to detect the signs of early literacy difficulties and receive resources to support early literacy development.

Extension Extras Professional Hour is a free online series of professional development workshops that provide guidance for early childhood professionals of young children as they navigate the joys, challenges, and concerns of caregiving.

**HOW TO REGISTER:**
