

Ben Russow - Mason Middle School
Administrative Report
Date: March 10, 2021

- I have been looking at 2 schedules to help us return to school full time. The biggest concern at the Middle School is class size numbers. Returning to a full day will require us to cut 1 section at each grade level. As a result, class sizes will move from 18-19 to 25-27 students per class.
- Track and Middle School softball/baseball will begin on Monday, March 22. Our participation numbers look steady.
- Mason Middle School will be sponsoring a spirit week – March 15 – March 19. We have a variety of dress up days and modified activities planned for the students. We will be conducting a Peanut Butter and Jelly Food Drive to support the local food drive at St. Joe's in Monroe.
- Our Math Counts team participated in a regional competition and did very well. Karter Stubleski, an 8th grade student qualified for the State Finals by placing 2nd overall out of 35 students.
- P-SAT will be given to our 8th graders on April 13th. Our teachers are currently preparing students for the assessment.
