DESCRIPTION:

December 8: Mathematics for Infants and Toddlers

Infants and toddlers aren't ready to add or subtract yet, but they can learn and practice important math skills. Mathematics for Infants and Toddlers helps parents and caregivers learn and practice ways to help children develop a strong foundation for important math skills. This workshop will help participants learn about the five math concepts that infants and toddlers should be exposed to in natural ways throughout their day, explore ways to support early math learning, learn about ways to develop an early appreciation for math and ways to bring math into the outdoor environment.

Extension Extras Parenting Hour is a free online series of parenting workshops that provides guidance for parents of young children as they navigate the joys, challenges and concerns of parenting.

HOW TO REGISTER: Register in advance for any of the Extension Extras webinar workshops at the following link:

<https://msu.zoom.us/webinar/register/>
