

Ben Russow - Mason Middle School
Administrative Report
Date: June 15, 2020

- Our virtual education platform has wrapped up. We have developed an intervention plan for students that did not complete the 4th quarter requirements for their core area classes. This plan will go into effect at the start of school in September.
- Teachers have emptied and cleaned out lockers. Students have been pulling up to school since Friday to drop off computers/textbooks/band instruments and pick up their locker materials, yearbooks, and 8th grade class shirts. We have seen many friendly faces. Our teachers are working hard to create some kind of closure with our students for this year.
- Our PBIS programs are continuing to reward students who are engaging and doing great things during this virtual experience. Students are being acknowledged by teachers and weekly drawings are occurring to provide students with gift cards for their efforts. We are giving 15 – 20 gift cards per week up until June 5th.
- Class Awards were presented through our MS Facebook page last week. Teachers created videos announcing their individual class and special awards. Jessica also created slides to showcase names as well. The bigger awards went to the following 8th grade students:

Clifford Sterns: ***Xavier Wise (Boys) and Jenna Wright (Girls)***
Principal Award in Leadership: ***Rayann Durocher***
VFW Citizenship Award: ***Xavier Wise and Black Stanish (Boys) and Audrey Trainor (Girls)***
