

Ben Russow - Mason Middle School
Administrative Report
Date: May 13, 2020

- Our virtual education platform continues. Teachers are working hard and perfecting their instructional delivery skills. We are engaging students best that we can and are communicating with those students who are lacking engagement weekly. We are beginning to create a framework for our summer seminar to support those students who did not meet the expectation over the last 7 weeks.
- We are working on plan to deliver locker materials, collect textbooks, and pass out yearbooks. Our plan will be shared by all 3 buildings. We are looking to collect laptops on June 5th and then student possessions distributed on June 8 and 9.
- Our PBIS programs are continuing to reward students who are engaging and doing great things during this virtual experience. Students are being acknowledged by teachers and weekly drawings are occurring to provide students with gift cards for their efforts. We are giving 15 – 20 gift cards per week up until June 5th.
- Once again, I just want to acknowledge our teachers and staff for their hard work. It was great to see the Monroe Evening News sharing our all A's state report card grades with our community.
