

Mike Valentine

Operations Director Administrative Report

9/06/2023

- **Summer projects are wrapping up. The guys and I have had a very busy and productive summer.**
- **Transportation was a struggle last year and my hope is, now that we are in full strength, and should have a productive and less challenging year with the plans that are in place.**
- **The pool keeps moving forward. Between Kelli and I calling and meeting with the engineering and construction team, we are hopeful for a date to pass on for practice and meets.**
